Ensuring a safe cutover to phase one digital services

Velonetic will be ready for cutover to phase one digital services from 1 July 2024

Market cutover will begin on 9 July to allow for quarter end activity

We will not move to phase one unless we are confident that the technology works, with a robust cutover, rollback and contingency plan in place

Decision to cutover or postpone will be fact-based, in line with assurance framework

Key focus for market participants: testing, training and onboarding
