

Onboarding to testing

June 2024

Version 1

Onboarding: Helping you test the new Digital Processing Services

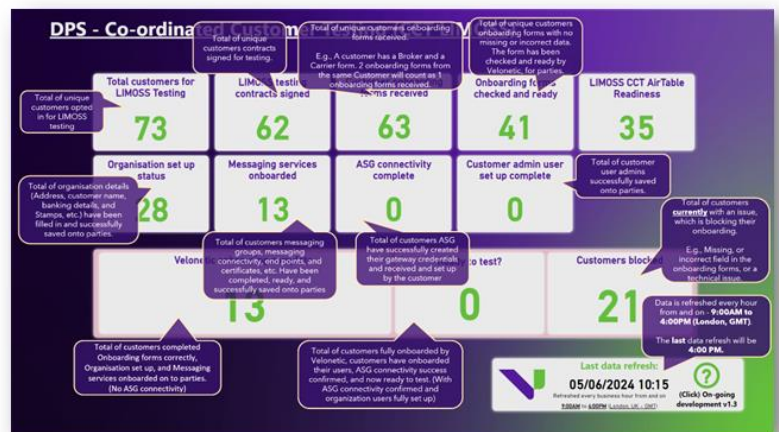

At the time of writing this Customer Coordinated Testing (CCT): Onboarding Guide, we - Velonetic, our customers, and other London market participants, are preparing for the safe cutover of our customers to phase one of the digital services forecasted for October 2024.

Electronic Data Interchange (EDI) information

Providing continuity of heritage messaging during phase one of digital services. Additional information including the Digital Processing Services Connection Guide can be found here: <https://www.velonetic.co.uk/blueprint-two/edi-information>. Please ensure you have the correct endpoints and certificates from your tech team and or vendor.

Onboarding Tracker

The onboarding tracker provides the latest figures on the progress of customers onboarded to the testing environment and is available here: - [LIMOSS CCT Onboarding - Power BI](#)

Training

We have created a training video to support you in completing the onboarding form. This video is available on the [Velonetic Education Platform](#), in a space separate from the main education area. We will be adding other useful videos to this dashboard as we progress into testing. This is also where your go live training will be located.

If you do not already have access to the training environment, please contact the team at VeloneticEducation@dx.com, with your first and last name, email address, company name, and information on what activity you perform, for example, testing.

Accessing the Digital Processing Service DPS Portal, ICOS and IPOS

To access the Digital Processing Services platform (DPS), your onboarding must complete.

We've listed the relevant URLs to facilitate any change processes that may be required by your organisations to whitelist IP addresses.

Platform	Relevant URLs
Parties portal:	https://argoops-home-new.dpscustomer-101.com/
ICOS direct page:	https://dmpl-claims-icos-2-new.dpscustomer-101.com/dashboard
IPOS direct page:	https://premiums-ipos-portal-app-new.dpscustomer-101.com/premiums/create-new-technical-account/account-details/1
