Market feedback

Sheel Sawhney – Group COO, Brit

I'm really proud that the market worked on this in collaboration... getting together and thinking about how to embrace technology, how to embrace automation, and how to challenge the status quo. The end state benefit for everyone is we have happy customers.

Iain Lebell – Head of Claims, Amwins

The hard work has already been done, and we're proud to have been a part of that, but the unfulfilled potential this project has to offer all stakeholders is immense; the elimination of loss funds and all their inherent failings from the market, the removal of the need for cash calls benefitting end-customers, the precursor of a genuine straight through settlement process; any of these in isolation would be amazing, together they will be revolutionary!

Policyholder feedback – Loss Adjusting Services, RELA

We had one direct quote 'very quick and efficient'. Overall, when we tell people money will be there the same day or next day, it is warmly received and importantly – no complaints! For example, now on a non-FCP payment, we are having to wait for a loss fund top-up, with FCP, we don't, which alleviates any potential stress on the team or from the Insured.

Van Mieke – Director of Finance, Hausch & Company

Lloyd's will be able to be more competitive with US insurers because you now have the ability to pay claims, right now, every time.
